name

The AFL Seed Library is a service that we offer to our community and communities around the area. The goal of the library is to help others grow their own healthy food. The seed library operates on an honor system to maintain a well-stocked collection of pure, healthy, viable seeds for the community to use. When you fill out this form and check out seeds, you automatically become a member of the seed library.

We encourage all members to learn basic seed-saving techniques. However, if this is your first year of seed saving, we ask that you only save seeds bean, pea, lettuce, or tomato plants. If you are unable to save your own seed, please donate a packet or two of fresh, commercially-grown, open-pollinated seed to help keep this service going for years to come.

Member Information

Name: _____

Email address (We only use this to contact you about seed library related events) : _____

Phone Number: _____

Garden Location: _____

I would like to be contacted about events related to the seed library (How to save seed, gardening techniques, etc.)

I would like to volunteer to help keep the seed library going. Please contact me about volunteer opportunities.

The Safe Seed Promise

Agriculture and seeds provide the basis upon which our lives depend. We must protect this foundation as a safe and genetically stable source for future generations. For the benefit of all farmers, gardeners, and consumers who want an alternative I promise that I do not knowingly buy, grow, share or trade genetically engineered ("GMO") seeds or plants.

Additionally, as a member of the Seed Library, I promise to grow plants and save seeds according to best practices to insure that I return viable seed that will produce plants true to the variety I label them to be.
